Press-Release  
September, 2014

## **Lumics' Appoints Laser Components USA as its Strategic NAFTA Distributor**

Lumics GmbH - Berlin and Laser Components – Hudson/N.H. are pleased to announce with immediate effect their strategic partnership which names Laser Components USA as the exclusive distributor for Lumics in all NAFTA countries (U.S.A., Canada, Mexico).

Responding to the constantly growing demand in that region for Lumics' high-power laser diode products with their many diversified applications in industrial, medical, space, defense, and scientific fields, Lumics continues to consolidate and strengthen its global sales support. With the exclusive appointment of Laser Components USA, new and existing customers will benefit from a much better service and continuity and Lumics will gain improved access to evolving applications in that region.

"The US market is a steadily growing market with great importance to us", said Dr. Nils Kirstaedter, Lumics' CEO. "We value Laser Components USA for their expertise in the photonics and laser industry and for their excellent relations with the key players, as well as for their competent technical support and after sales service to their customers."

"We are very pleased to enter into this exclusive agreement with Lumics. We are convinced that Lumics' high quality diode lasers will have a very positive prospect in our market. Our team is keen to intensify the business cooperation with Lumics and promote their products", states Gary Hayes, General Manager Laser Components USA.

Lumics GmbH in Berlin is a manufacturer of diode lasers, fiber coupled single- and multi-mode laser diode modules and turn-key laser systems based on Lumics' patented single emitter technology.

Laser Components USA, Inc., founded in 2000, is a leading provider of photonic products for North America. See also <http://www.lasercomponents.com/us/>.
